## *Commissioner's Foreword*

**Paul A. Rolle, Esq., QPM, MS, BS  
Commissioner of Police**

It is my distinct honor to present the 2020 Annual Report for the Royal Bahamas Police Force. On March 30, I was sworn in as the 8th Commissioner of Police for the Commonwealth of The Bahamas. I am privileged to command the Royal Bahamas Police Force in this capacity and serve the Bahamian people. Albeit, a time when the Force was managing two major incidents including the catastrophic aftermath of Hurricane Dorian and the emergence of the novel coronavirus that has kept our country in a state of emergency.

To that end, the courageous men and women of the Force remain committed to ensuring the safety and security of all Bahamians, residents, and visitors. These are tasks which every police officer must embrace given the intense scrutiny from the public and the media, which help to keep us accountable for our services. I commend each and every police officer for their outstanding service as the Force continues to navigate through the most challenging policing era in modern history.

As the police continue to face new threats and challenges in 21<sup>st</sup> Century law enforcement, we must continue to upgrade and review practices aimed at providing policing services that are relevant in today's rapidly changing policing environment. Therefore, we have invested in our human capital and other key resources to assist with the

overall management of crime. These investments are critical to the dynamics of the Force as we continue to transition into a learning organization with employee development through constant training at every level.

To that end, the Force continues to recruit the best and brightest prospects from all Bahamian communities. These prospects include university graduates with varying professional disciplines to further propel the Force into an organization that is revered by Bahamians and envied by international law enforcement counterparts. As we continue to tip the scale in law enforcement across the Caribbean, we have integrated emerging technologies into our policing operations with the expansion of ShotSpotter; the establishment of Marco's Alert Digital Billboards; the mobilization of drone technology; the upgrade and expansion closed circuit television (CCTV); and the introduction of body worn cameras, and dashboard cameras. We have also upgraded and improved our information communications technology platform throughout the family islands as we seek to deliver the best possible law enforcement policing services to the Bahamian public.

Overall, the Royal Bahamas Police Force was challenged and rose to the occasion amid its vast responsibilities in 2020. The year was distinct compared to previous years in every aspect as a worldwide occurrence took place. On March 11, 2020, the World Health Organization declared the novel coronavirus a global health crisis. By mid-March the COVID-19 pandemic reached the Bahamian borders and drastic measures were undertaken to sustain the Country and help save lives. As an immediate proactive measure, the Force implemented a '10 Step Guideline to COVID-19' aimed at educating, informing and preparing all members of the Organization for the impending eventualities of the pandemic.

The Force reviewed and altered its administrative and operational procedures to contend with the coronavirus restrictions. Each member of the Force was required to observe all COVID-19 safety protocols, including social distancing, wearing face masks, and regularly sanitizing while at work. In addition, all police stations were sanitized and a robust internal quarantine contingency was implemented to mitigate further exposure and/or spread of the virus. The Force also modified the way it conducted meetings, training sessions and briefings with the expanded use of technology. Significant changes were made to the civilian staff work schedule to include flexi-time and working remotely from home. Since the pandemic, the Force expended more than \$600k on sanitation and safety efforts, including the investment in personal protection equipment. For the safety of staff and visitors, all police stations and

departments were outfitted with Plexiglas dividers, automatic temperature monitors, and strategically placed sanitizing stations.

At the onset of the pandemic, the Force established the COVID-19 Command Center to coordinate and enforce the Emergency Powers Order for mandatory lockdowns and curfew. At the peak of lockdown operations, the Force deployed 1,450 police officers including 1,200 officers in New Providence and 250 officers in Grand Bahama. We were also assisted by the Royal Bahamas Defense Force with the deployment of 300 marines. The police officers and marines worked in tandem and conducted mobile and foot patrols in all areas while providing a high level of police and law enforcement visibility throughout The Bahamas. The officers and marines were also tasked with paying special attention to beaches and parks during the day time as well as to disrupt assemblies that were in contravention of the Emergency Powers Order while actively conducting regular duties on the frontline.

Later in the year, the Force expanded its curfew operations and established the COVID-19 Enforcement Unit which is managed at the Cable Beach Police Station. The Enforcement Unit comprises 161 ambassadors throughout the Commonwealth including 92 in New Providence, 37 in Grand Bahama, and 32 in the Family Islands. Specifically, ambassadors are on the islands of Abaco, Bimini, Exuma and Eleuthera. These ambassadors are responsible for coordinating national activities to ensure that the public adhere to the enforcement protocols of the Emergency Powers Order.

During the year, there were 4,275 breaches to the COVID-19 Emergency Powers Order. This figure includes 2,370 curfew violations. The Force also responded to 126 COVID-19 calls for assistance. By the end of the year, the coronavirus impacted the entire Commonwealth of The Bahamas with 7,887 confirmed cases including 288 members of the Force.

Section 4 of the Police Force Act 2009 outlines the mandate of the Force. Our current crime fighting strategies and policing initiatives seek to build safer communities through engaging public discourse, support and participation. The officers of the Royal Bahamas Police Force have successfully fulfilled the 7 priorities outlined in the Commissioner's 2020 Policing Plan as follows:

1. Prevention and Reduction of Crime;
2. Financial Crime Investigative Capacity;
3. Public and Road Safety;
4. Protecting People at Risk of Harm;
5. Positive Youth Interaction & Reduction of Anti-Social Behavior;
6. Internal Service Delivery and Public Confidence; and
7. Technology and Police Operations.

I am pleased to report that due to our hard work, persistence and public support, we saw an overall reduction in serious crime. This is indeed our most notable highlight of 2020 as preliminary figures indicate that major crimes across the entire Bahamas decreased by 16% when compared to 2019. Crimes against the person decreased by 12% with 724 incidents, compared to 914 in 2019. Property crimes decreased by 15% with 3,519 incidents, compared to 4,128 in 2019. There were regional decreases in New Providence and the Family Islands District at rates of 17% and 21% respectively when compared to 2019.

In 2020, the police arrested a total of 12,317 persons for various major and minor offences throughout the Commonwealth of The Bahamas. Of this number, 6,275 persons were charged and placed before the Court. This figure represents an overall 51% detection rate for major and minor crimes. There were 843 convictions in the Magistrates Court and 6 acquittals. Eighty-four cases were withdrawn by the virtual complainant and 126 cases were discharged by the Court.

The men and women of the Force performed at an exceptional level and a myriad of factors contributed to this feat including a strict adherence to the Commissioner's 2020 Policing Plan. Accordingly, we kept communities safe by providing high police visibility throughout the Commonwealth as a crime deterrent strategy. We ran daily operations that targeted hotspots and prolific offenders as a crime preventative measure. We restructured the Mobile Division

with additional officers and tactical resources to launch the Operational Command Division, putting more police patrols throughout New Providence and Grand Bahama.

We executed numerous search warrants and detained persons on outstanding warrants of arrest to spin the wheel of justice. We conducted road checks and engaged in aggressive stop and search tactics to remove illegal firearms and dangerous drugs from the streets of The Bahamas. Notably, we seized 279 illegal firearms, 4,044 rounds of ammunition and charged 178 persons for possession of illegal firearms. We seized 4,301 pounds of marijuana, 1,505 marijuana plants and 165 pounds of cocaine. As a result, we arrested 1,383 suspects and charged 1,120 persons for possession of dangerous drugs.

We demonstrated compassion to victims of serious crimes and conducted 101 family meetings, 151 follow-up telephone calls and 95 agency referrals for counseling. We collaborated with other law enforcement agencies and ran joint operations with the Royal Bahamas Defence Force, The Bahamas Department of Immigration and The Bahamas Customs Department in addressing the overall fight against crime.

We expanded the investigative capacity of the Financial Crime Investigations Branch with additional officers and training. All officers at the Branch are certified at international standards to conduct financial crime investigations. As a result, we contributed to having The Bahamas removed from the Financial Action Task Force's Grey List and placed the Country in a position for consideration of removal from the European Union's Black List. We conducted anti-money laundering and compliance training at local banks and insurance companies to educate employees within the Financial Services Industry on the latest scams. We assisted several countries with money laundering investigations effectively seizing millions of dollars in cash and assets as proceeds of crime.

We conducted thousands of traffic stops and cited motorists that were in violation of traffic laws. We employed speed guns to monitor our highways and crackdown on reckless drivers as a means to encourage road safety. We mobilized officers throughout The Bahamas and issued over 18,000 Fixed Penalty Notices. We investigated 8,516 Road Accident Reports. Based on our road safety measures and strategy we saw a 6% decline in traffic fatalities and 31% decline in road accidents. We utilized our community reach through the National Neighbourhood Watch Council, Urban Renewal and the National Crime Prevention Office to educate the public on road safety, domestic violence, and crime prevention tips.

We also educated the Force on domestic violence and reinvigorated our relationship with the Bureau of Women's Affairs, the Department of Gender and Family Affairs, the Community Counseling and Assessment Centre, the Department of Social Services and our international affiliates on Women's Affairs. We witnessed the ascension of women police officers to key positions within the Force including the Deputy Commissioner's Office.

We invested in our human capital and other key resources to assist with the overall management of crime. These investments are critical as the Force continues to transition into a learning organization. We invested in training in particular and improved our case file preparation process resulting in more successful prosecutions and higher conviction rates. We facilitated the training of 2,548 police officers in various disciplines to bolster internal service delivery and public confidence. An additional 207 law enforcement officers from other agencies were also a part of this training.

We amplified our community policing message using our website and social media platform, talk shows, documentaries, public service announcements, literature and seminars. We engaged the youth of our Nation face to face and through virtual platforms with various positive initiatives. We instituted a youth band and established a Cadets Program in Inagua, North Andros and South Andros. We hosted youth camps and sporting events as an outlet to keep young people occupied and out of trouble. We conducted lectures and seminars to dissuade young people from joining gangs and/or engaging in criminal activity.

As part of our humanitarian efforts and strategy to assist in the fight against crime, the Force continues to partner with communities throughout the Commonwealth of The Bahamas. We are fully cognizant of those communities that were negatively impacted by the pandemic based on feedback from our community outreach portfolios on the ground including the National Neighborhood Watch Council (NNWC), Urban Renewal, and the National Crime Prevention

Office. As a result, we secured and distributed more than one million dollars in goods to further expand and bolster our community policing efforts throughout the communities in New Providence, Grand Bahama and the Family Islands. Our community relations activities included community walkabouts, food drive initiatives, distribution of grocery vouchers, water, face masks, school supplies, and tablet computers for children to access the virtual learning portal.

We created 144 neighborhood watch groups throughout the Commonwealth of The Bahamas in conjunction with our National Neighborhood Watch Council, as a means to bridge the gap between the police and the community. Due to the exceptional work of the National Neighborhood Watch Council, the Force received the coveted 2020 Community Policing Leadership Award from the International Association of Chiefs of Police (IACP). During the final quarter of 2020, the National Neighborhood Watch Council coordinated efforts with Urban Renewal and embarked on the, “We Are One” neighborhood cleanup campaign that was sponsored by the Ministry of National Security. We will continue to build on these initiatives and share information on crime trends in the various communities to involve citizens in keeping their neighborhoods safe. It is incumbent upon all Bahamians to participate in community building efforts. Officers at the divisional level will continue to interact with residents, business owners, schools, and religious institutions to ensure that all are safe.

As of December 31, 2020, the strength of the Force stood at 2,670 sworn police officers. Due to attritional factors, 93 police officers exited the Force in 2020 including 25 senior police officers. An additional 121 police officers are expected to retire by the end of 2021. This figure includes 36 senior police officers at an estimated retirement cost of \$5.547m including \$3.060m in gratuities and \$936k in salaries. The figure also includes 94 contracted police officers at an estimated retirement cost of \$1.551m.

As per the 2018 Manpower Audit that was tabled in Parliament and historical data presented in Annual Reports 2000 through 2005, the establishment of police constables stood at around 1,620 officers. As of December 31, 2020 the Force remains deficient in the constabulary rank by 989 officers with only 633 constables on its strength. These numbers are daunting given the fact that we were unable to sustain recruitment levels to supplant attritional losses and postings due to promotional exercises. It is recommended that an average of 200 police constables are recruited per year over the next 5 years as an initial step to rebuild the front line capacity of the Royal Bahamas Police Force. This necessity will cost the organization \$3.6m per annum. However, the Force expects to conduct a recruitment exercise in 2021 with 150 new hires at an estimated cost of \$2.7m.

Despite the successes for the year, the Organization continues to be challenged with productivity losses due to sick reports and 4 hours sedentary duties. During the year, the Organization lost an estimated \$5.861m in sick reports and \$561k in 4 hours sedentary duties respectively. The contracted ranks accounted for \$5.287m or 90% of all productivity losses due to sick reports and \$553k or 99% of all 4 hours sedentary duties.

Notwithstanding, I will continue to review policies and realign the ranks of the Force to efficiently manage manpower resources at all police stations throughout The Bahamas. I will ensure that training plays an integral role as the Force transitions into a learning Organization. I am in the process of restructuring the Force and a number of transfers to the Family Islands and Grand Bahama have already taken effect to reinforce manpower numbers in those districts. There were also transfers in New Providence at every level in an effort to fulfill the functional capacity at each division as described in the Organization of the Royal Bahamas Police Force.

We will continue to effectively maximize our human resources in addressing public concerns and preventing crimes at every level. Our fundamental task of protecting the Nation is herculean in nature, and one that we take very seriously. We have effectively executed our duties for the period and maintained the core values of the Organization. We have managed our resources efficiently and displayed high levels of competency and work ethics to consistently enforce policies that govern our daily operations and the Emergency Powers Order.

The Royal Bahamas Police Force remains steadfast in its law enforcement mandate and will continue to function accordingly. The Organization is filled with creative and innovative police officers who possess the requisite skills, talents and expertise to manage crime. We are optimistic about 2021 and we look forward to maintaining our pivotal role in policing the Commonwealth of The Bahamas while creating safer communities.

# *Financial Support Services Section*

**Mrs. Angela Johnson, AA  
Superintendent of Police  
O/C Financial Support Section**

## **1.1 Manpower**

The Financial Support Services Section is responsible for managing and controlling all financial matters in the Organization. The Section is headed by Superintendent Angela Johnson, who is assisted by Assistant Superintendent J. McPhee, 1 Inspector, 3 Sergeants, 5 Corporals, 2 Constables, and 5 Civilians.

## **1.2 Financial Activity**

For the period in review, the section completed 111 batches for payment between 01/07/20 – 31/12/20, 32 prior year financial clearance requests, 19 financial clearance requests over \$20,000, 696 purchase order requests, 286 printed purchase orders, 4 virements, and 17 wire payments. During the 1<sup>st</sup> half of 2020, of the \$9,748,356 budgeted for in Expenditure, there was a balance of \$1,108,666.56. Of the 14 Payroll items, 6 items had insufficient funding to cover payments for the period, while 8 items had sufficient funding to meet

budgeted projections; Travel Operations met its financial obligations as indicated below.

During July 1 – December 31, 2020, there were shortfalls in most items, including requests for early releases. However, there are still outstanding matters awaiting third-quarter releases (See table below). The Subsistence (Domestic) Item is currently overdrawn by \$63,730.77. The department also made weekly bank deposits, prepared cheques for vendors, made private engagement payments, made deposits to the Retired Officers Insurance, prepared Canteen and Welfare Funds, made payments to weekly wage workers, made monthly payments to police reserves, and collected revenue for operating and non-operating expenses. (See tables below).

1. Divided the office into teams, to which each team is responsible for providing breakfast/lunch each week.
2. Staff Christmas lunch – December 18, 2020.

#### **1.17 Challenges**

Although the Section was successful in accomplishing most of its objectives given the resources on hand, the section faced the following challenges for the period in review.

1. Commanders continue to make requests without following the protocol for the required number of quotes needed and justification as to why there was a shortfall in the amount provided. This creates delays in output.
2. Commanders are going directly to vendors to purchase items without approved purchase orders.
3. Because of the lack of funding and manpower (due to training needs in the system), there is a backlog in requisitions being processed and purchase orders being printed.
4. Challenges in output due to limited resources such as access to the Treasury TMFS system.
5. Delays in wire payments to international companies due to lack of manpower at the Treasury and delays at the Central Bank due to economic constraints in the country.
6. Outstanding matters due to insufficient funding.

**Table 9**

Also outstanding are payments of \$71,108.80 for BOSS and \$76,976.48 for Book world – P/O from the Treasury ATW for furniture for various stations throughout New Providence.

### **1.18 Recommendations**

While the department reviews best practices to improve overall efficiency and effectiveness, the following recommendations are proffered to assist in police operations.

1. We are continuing to encourage Commanders on the importance of effectively managing their resources due to the challenges faced with limited funding.
2. Only request what is necessary and continue to follow the protocols to ensure receiving requests promptly. (I.e., providing 3 quotes when making requests, returning invoices so vendors can be paid, and requesting purchase orders before obtaining items from vendors.
3. Offices need more training to be more effective.

The AFIS section of the Criminal Records Office, New Providence, has had an overall successful year related to the solvency of crime. Although faced with some challenges, much has been accomplished thus far. For the period in review, we have examined, analyzed and verified several cases brought to us for inspection. There were 776 various matters brought to this section to be examined between January through December 2020, which shows a 7.8% decrease, compared to 842 in 2019. In addition, the section recorded some 91 fingerprint identifications which show a 49.7% decline compared to 181 fingerprint identifications for the same period in review. Many factors were contributing to the decrease in the submission of crime scene marks and fingerprint identifications. The Covid Lockdown periods and enforcement of curfew affected the decline in matters being submitted. Concerning fingerprint identifications, various contributing factors resulted in suspects not being detected using fingerprints. The primary factor is that the suspects are sometimes young offenders or persons not in the AFIS database.

### 1.6 Social Events

Despite the many issues of 2020, there is still much to be thankful for. On Thursday, December 24<sup>th</sup>, 2020, there was an awards ceremony and presentation for staff members to recognize their outstanding efforts throughout the year.

### 1.17 Challenges

1. Recently, we have been receiving requests from the stations for CSI assistance for matters reported an entire shift before it was relayed to the CSI office. More many stations still fail to have a case number assigned to these matters despite the delay.
2. A number of our cameras have failed, as they have reached the end of their shutter life. Since discontinued. No replacement parts and limited to no technical support available from vendors. More than 50% of the camera lenses and flashes owned by this unit have failed or died. That is the result of continuous use without replacement and or servicing. Moreover, there is very little, if any, local technical expertise.
3. Officer not taking fingerprints of the suspect:

4. Stations are not correctly filling out the fingerprint form, e.g., no address, parent's name, or date of arrest, which is pertinent to identifying an individual, among other things.
5. Wrong case # affixed to the fingerprints.
6. Not properly updating the AS400 on the arrested and charging a suspect and entering the name file. Suppose a suspect is entered in the name file when a fingerprint has a wrong case number. It can easily be found and amended.

### **1.18 Recommendations**

While the Division continues to review best practices to improve overall efficiency and effectiveness, the following recommendations are proffered to assist in police operations:

1. Storage Space – a lack of storage space for the proper securing of exhibits.
2. As it relates to challenging #5 It is suggested that if fingerprints have to be taken of a person brought in for questioning to put profiling for the charge and a fictitious case # is affixed (e.g., 000000000).

This cheque was deposited to the Law Firm of Elma Campbell and her son Che Chase. In tracing the funds, officers noted a number of transfers to other accounts including to Auto Mall for a 2020 BMW Vehicle. There was also a large transfer of over \$400,000.00 to a company Bahamas Outdoor Media which is owned by [REDACTED]. All three persons were charged. The matter is awaiting trial

Officers conducted investigations into this matter which linked two (2) individuals to this matter, [REDACTED] (business owner) and [REDACTED], who is suspected of depositing the fraudulent cheque. Both persons were charged before the courts. The matter awaits trial. Over \$100,000.00 was restrained on a bank account during this investigation.
4. In August 2020, FCIB received reports from officials of the National Insurance Board pertaining to fraudulent unemployment claims that were paid out. Internal investigations revealed that an NIB Manager attached to the Andros Division was responsible for processing the claims, namely [REDACTED]. Based on information received applications for unemployment benefit claims were submitted by numerous persons who did not work for several companies and cheques were issued to them. This led to the arrest of over fifteen (15) persons between New Providence and Andros who were charged before the courts. This matter is presently before the courts.
5. In October 2020, FCIB received a report from John Watlings Distillery where it was reported that the accountant for the company [REDACTED] misappropriated almost \$200,000.00 in company funds by stealing funds that were paid into the company by international suppliers (who noticed that their accounts were not reconciled). When they spoke to [REDACTED], she admitted to stealing company funds and added that she had a gambling problem. [REDACTED] was later arrested and charged with multiple counts of Stealing by Reason of Employment. The matter is still pending trial.

The staff member made a check of their internal accounting system and discovered that the valid cheque #205695 had been disbursed from August 2020. She immediately informed. This cheque was made payable to [REDACTED] Company in which no supporting information could be found. It was later determined that \$160,000.00 had already been withdrawn by the account holder, namely [REDACTED]. Investigations were carried out to locate [REDACTED], however, information was received that he fled the country and is currently in the USA.
7. During the month of December 2020, FCIB received reports from several business establishments pertaining to fraudulent cheques purporting to be from J.S. Johnson Insurance Company. The fraudsters were able to get thousands of dollars' worth of building materials, plexi-glass, a motor scooter and other items by presenting these cheques at the above establishments as payment. As a result of enquiries conducted, officers were able to identify two (2) of the persons who presented these cheques, namely [REDACTED] and [REDACTED]. Both males were charged in relation to five (5) business establishments. The matters are pending trial.

8. The FCIB received several reports from officials from Immigration regarding two (2) males who were suspected of obtaining Bahamian documents including Passports, NIB Cards, Voter's Cards, and Driver's Licenses by using a Forged Birth Certificate. These males (known as John Doe) used the certificate to assume the identities ██████████ and ██████████ both believed to be of Jamaican descent). Investigations revealed that the person who is listed as their mother on the birth certificate was illegally placed on the document as she provided information that she is not their mother. ### Commissioner’s Policing Plan

#### Priority 2: Financial Crime Investigative Capacity

In accordance with the Commissioner’s Policing Plan Priority 2, The FCIB has complied with the action points outlined and has implemented strategies to ensure the efficient and effective operation of the branch and use of government resources. The three (3) inspectors within the unit have been assigned specific portfolios to manage and several officers under their remit to carry out certain functions. These are (i) Fraud Related Incidents (2) Money Laundering/ Proceeds of Crime Incidents, and (3) Corruption Matters.

Throughout the year, FCIB has liaised with other units such as DEU, CDU, and CIB in order to target known offenders and conduct investigations into suspected Proceeds of Crime. The latest incident occurring in late December as DEU executed on a known offender and several U.S. credit cards (not belonging to the individual) were found. A firearm magazine was also located resulting in all three (3) units working together to target this individual.

FCIB continues to have a strong relationship with its external partners in order to gather and act on intelligence as it relates to criminal activities. The Immigration Department and the National Insurance Board, in particular, are constantly providing information and intelligence to this unit which has led to the arrest of many fraudsters and persons in possession of the proceeds of crime. The Financial Intelligence Unit and 5 Stones Intelligence (based in the USA) has also offered invaluable assistance to the unit as we conduct our investigations.

The branch also continues to offer assistance to external partners in the international fight against crime. Along with participating within the ARIN-CARIB network (Asset Recovery Unit for the Caribbean), there have been a number of MLATs requests channeled through the Office of the Attorney General that the unit has assist with as it relates to identifying and freezing the proceeds of crime within banking institutions operated by foreign nationals.

For 2020, there were a total of thirteen (13) Money Laundering Matters that were placed before the courts. This is a decrease when compared to 2019, in which there were sixteen (16) Money Laundering matters.

In December of this year, after many years of work the Bahamas was delisted from the grey list of the FATF. This decision follows the final assessment and recommendations which was overseen by an International Cooperative Review Group of Americas (ICRG) and have been determined to be technically compliant. The FCIB of the RBPF met the requirements in (Immediate Outcomes) IO’s No. 7 and 8 which focuses on strategies implemented to combat Money Laundering and Terrorist Financing such as Training and Resources. Some areas include complex Money Laundering Investigations, Tax Matters, etc. This area also includes Confiscation of the Proceeds of Crime both locally and internationally.

### **1.17 Challenges**

Although the Division was successful in accomplishing most of its objectives given the resources on hand, the Division faced the following challenges for the period in review.

1. In the years prior to Hurricane Dorian the college's infrastructure suffered from lack of routine maintenance. This problem has been exacerbated by the hurricane of 2019. A lot of work has been done to the college compound via N.I.B. who has remit of the college's buildings but plumbing in the dormitory and auditorium areas are in urgent need of repair/maintenance. To date, estimates have been received by N.I.B. however no work reference to plumbing has been done. This problem greatly diminishes the number of recruits that can be housed on the compound.
2. Staffing continues to be an area of concern. The attrition rates have caused undesirable gaps in knowledge and training.
3. Entrance Exams which are regularly held to assist in qualifying persons for recruitment have not been held in over a year. This has caused a backlog of some 120 persons waiting to sit exams. These people along with the individuals who are academically qualified at the time of their application make-up the pool from which we recruit persons. This pool is essentially empty and needs to be replenished so we can continue to choose the best candidates for recruitment.
4. Essential training equipment are needed at the training college. At current one projector/laptop is shared between three (3) classrooms at times. The Ford fifty-seater bus has been deemed irreparable by transport mechanics. Instructors do not have proper desks to secure confidential information and documents.

### **1.18 Recommendations**

1. While the Division continues to review best practices to improve overall efficiency and effectiveness, the following recommendations are proffered to assist in police operations:
2. In reference to the plumbing issues at the college we will continue to work with NIB and Maintenance personnel to ensure that the facility is in order for training purposes.
3. In reference to staffing issues we recommend that officers be more thoroughly vetted before being transferred to the college and that when officers are transferred to the college that they are placed there well before training begins so that they can properly settle into their various roles before being thrust into the responsibilities that come with the training environment.

4. A set date/back-up date needs to be set for police entrance exams. This will help ensure the constant flow of qualified candidates at each recruitment exercise.
5. Requests have already been made for learning aids, vehicles, and furniture. Follow-ups on these items will have to be done.

On Tuesday 4<sup>th</sup> February 2020, at about 9:00am, the staff of the Police Training College, Northern Campus attended the Swearing in Ceremony of 54 new recruits who were sworn into the Royal Bahamas Police Force by the Commissioner of Police Mr. Paul Rolle. The recruits included (35) Bahamians and (19) recruits of the Royal Turks and Caicos Police Force who were mixed into two separate squads, A and B for the year 2020. This historic event marked the first time that officers from the Royal Turks and Caicos Police Force have trained at the Northern Campus. During their eighteen (18) week stay the combined "A & B" squads would have completed the Recruit Training Program here at the northern campus.

On September 24<sup>th</sup> and September 25<sup>th</sup>, the Police Training College facilitated a two day training program for the new COVID Ambassadors and Enforcers for the Island of Grand Bahama at its computer center and auditorium. The sessions were presented by professionals in New Providence via the Zoom video program. ACP Ashton Greenslade and Chief Superintendent Ken Taylor visited the program which was headed by Ch. Supt. # *Prosecutions Division (GB)*

**Mr. Sean Norville-Smith, BA**  
**Superintendent of Police**  
**Director of Prosecutions**  
**Division (GB)**

## **1.1 Manpower**

The Prosecutions Division is responsible for prosecuting criminal matters in the Magistrate Courts, and the execution of outstanding warrants in the Grand Bahama District. The Division is headed by Superintendent Sean Norville-Smith who is assisted by 1 Inspector, 8 Sergeants, 3 Corporals, 2 Constables, and 1 Civilian.

## **1.2 Police Activity**

The year 2020 was a rather unusual one for the Prosecutions Department. In March 2020 all criminal and civil trials were suspended until further notice due to the Covid 19 Pandemic. Hence, only first pleas, bail hearings, matters set for decision, and warrant cancellations were dealt with by the Courts. Nevertheless, Officers from the Department remained focused and prepared for whenever the order is given by the Chief Justice for court trials to resume.

For the year in review, the Division received a total of 772 criminal files and 4 traffic files for first plea (arraignment). (584) of these matters were adjourned pending trial (not guilty pleas) and 191 of them were completed via guilty pleas followed by convictions or absolute/conditional discharges. Please see Table 1 for a breakdown of these matters.

The Division also received 235 Breach of Emergency Order files for arraignment. From this number, 219 bench warrants were issued for person(s) who failed to appear before the Courts for arraignment.

Additionally, the Warrants Section executed a total of 1,120 warrants for the year and received a total of 548 from the Courts for execution.

Table 1 below depicts a breakdown of the files received for the year in review. (As mentioned earlier there 584 matters adjourned pending trial and 191 completed matters.)

##### **Buildings:**

All buildings have been extensively damaged by Hurricane Dorian and not fit for habitation or to work from. It's almost a year to date since supplies have been delivered for repairs. Thus far, there is no visible effort being done.

The existing bathroom is located in the Police Store building and is only functioning on fifty percent. In the case of quick or urgent bathroom or sanitation needs the distance renders it useless to the mechanic staff.

1. Operating on generator power for over 1 year.
2. Buildings, inclusive of offices and storage areas, are in desperate need of repairs.
3. Insufficient mechanical tools.
4. Proper vehicle for Police Stores.

1. Complete renovations to operate fully on the main power.
2. Purchase of additional mechanical tools.
3. A small truck for Police Stores to collect supplies.

**Mechanical Section:**

The Force Mechanics, supervised by ASP Curtis Rolle, conducted repairs and serviced vehicles in this District for the entire year of 2020. The following is the status of vehicles in this District.

**Current Operational Vehicle Fleet:**

The current fleet of operational passenger vehicles in the Grand Bahama District stands at a total of 72 with 60 being greater than 5 years old. Included in the current operational vehicle inventory are 10 police motorcycles of which one is more than 5 years old and is in need of replacement due to normal wear and tear. All of the Mitsubishi L-300 are in poor condition and are in need of replacement. The useful age of a vehicle for policing purposes is 3 – 5 years, with approximately 12 of them are beyond the 5 year period. Therefore, it is recommended that they should not be used for operational duties.

During the year, internal repairs conducted on vehicles included replacement of cylinder heads; windshield wipers, gear boxes, wheel bearings, water pumps, rotors, tie rods, alternators, starters, brakes, C.V joints and other numerous related tasks.

Due to the implementation of V.A.T many businesses were not V.A.T compliance which significantly reduced the number of police vehicles outsourced for electrical and transmission repairs.

## Strategies

In keeping with the Commissioner's Policing Plan 2020, Priority One which speaks to the Prevention and Detection of Crime, officers from the Abaco Division adopted a multifaceted approach to ensure this mandate was fulfilled. As such, recommended strategies from the Commissioner's Policing Plan were taken to prevent, eliminate and reduce incidents of serious crimes. In order to achieve this goal, the following steps were implemented: increased manpower throughout the Island of Abaco, joint operations with armed forces (RBDF), and on-going operations to increase police visibility. Further, strengthening community ties by working closely with Community leaders, Civic Organizations and the National Neighborhood Watch also was adopted as a strategic approach to combat crime.

### 1.5 Significant Firearm and Ammunition Seizures/Discoveries

1. On 29.09.2020 at about 9:15am, officers from the Abaco Division assisted by R.B.D.F. officers, acting on information, executed a search warrant on the premises of Pericles Maillis D/B 24.6.52 of Gilpin Point. As a result, the officers discovered five unlicensed firearms, a large quantity of ammunition and a quantity of marijuana. The accused was arraigned where he pled guilty and was fined a collective total of \$15,500, which was paid. However, the matter is currently pending appeal by the A.G Office due to the view that the sentence was too lenient.

### 1.6 Significant Drug Seizures/Discoveries

1. On 6.11.2020 at about 2:10pm, as a result of intelligence led policing, officers stopped and searched a Honda Fit vehicle occupied by [REDACTED] and [REDACTED]. Upon searching the vehicle the officers discovered five (5) pounds of marijuana, a Glock .45 pistol and stolen goods. As a result the men were arrested and subsequently charged. They were arraigned before the Magistrate Court where they pled not guilty. The trial date has been set to 10.3.2021.

### 1.7 Sick Report, Welfare and Productivity Loss

All officers attached to the Division work 8 hour(s) days. For the period in review, the Division recorded a total of 318 certified sick days. Table 3 outlines the cost of productivity loss due to sick days by rank. The table also includes

### **1.17 Challenges**

Although the Division was successful in accomplishing most of its objectives given the resources on hand, the Division faced the following challenges for the period in review.

Due to excessive rain at times and some parts of Eight Mile Rock being a low-lying area both police cars are not able to traverse the streets. The area floods thus preventing officers from conducting mobile patrols and attending complaints due to the vehicles being low.

The emergency lights and siren are not working in none of the two (2) vehicles.

The base radio set in the station is not functioning.

### **1.18 Recommendations**

While the Division continues to review best practices to improve overall efficiency and effectiveness, the following recommendations are proffered to assist in police operations.

The division should be outfitted with jeeps or vehicles that have higher ground clearance.

### 1.10 Attrition

Based on the process of attrition, the Division's manpower is deficient in rank as follows:

Ranks
(1) Superintendent
(1) Assistant Superintendent
(2) Inspectors
(7) Sergeants
(9) Corporal
(35) Constables
<b>Total – 55 Officers</b>

The above table is due directly to the movement of officers out from the Fire Department and no replacement. Records will reflect officers being trained for the Fire Services but the true account will show that it is only a book entry and not facts; they are elsewhere. This is the most deadly attrition of all; coupled with retirement.

### 1.13 Training

For the period in review, officers attached to the Division attended the following training courses and seminars as outlined in table 5. The table also highlights in house training conducted by the division.

**Table 5**

### 1.15 Challenges

Although the Division was successful in accomplishing most of its objectives given the resources on hand, the Division faced the following challenges for the period in review. The Fire Services is ineffective and finds it impossible to carry out its mandate as prescribed within the Police Act. The depletion of manpower through transfers and attachments has this indispensable area severely crippled and handicapped.

The fact is that there are inadequate personnel on each shift to function efficiently. With 5 men per shift, the daily responsibilities proportioned are overwhelming. For the sake of clarity:

1. The Shift Commander, his duties are clear
2. The Diarist/ Controller
3. The Appliance Driver/Pump Operator
4. Assistant Driver/ Firefighter
5. Firefighter
6. Equipment
7. Manpower
8. Uniform

### 1.16 Recommendations

While the Division continues to review best practices to improve overall efficiency and effectiveness, the following recommendations are proffered to assist in Fire Fighting operations.

1. It is recommended that the Police Officers who are trained in the discipline of Fire Fighting Rescue, Extrication, Arson Investigation, and Fire Prevention, be returned to the Fire Services, where their expertise can be effectively employed. This would also be effective in the transfer of knowledge to those young firefighters that will inevitably become successors and heir to this indispensable service. Overseas training is a moot point at this time and therefore it is incumbent upon us to ensure that they are developed in-house by those who are knowledgeable and experienced in this field. Time is not our best friend at this critical juncture in the R.B.P.F and our country will require this indispensable service one way or another. It would be far less than prudent if we do not develop and educate these young officers now. Today we are risking their safety due to current strategies that are in place. We perhaps need to evaluate and re-evaluate until we can bring a balance dispassionately and professionally to this insidious environment in which we find ourselves.

1. In house Training: 3

### **1.17 Challenges**

The Fire Services is ineffective and finds it impossible to carry out its mandate as prescribed within the Police Act. The depletion of manpower through transfers and attachments has left this area severely handicapped and lacking.

The fact is that there are inadequate personnel on each shift to function efficiently. With 5 men per shift, the daily responsibilities proportioned are overwhelming. For the sake of clarity:

1. The Shift Commander, his duties are clear
2. The Diarist/ Controller
3. The Appliance Driver/Pump Operator
4. Assistant Driver/ Firefighter
5. Firefighter.

This accounts for the entire shift providing that there are no sickness or earned days off. As we are aware, the average amount of hours put in per month at the Fire Department is seventy-two (72) hours per week and ninety-six (96) hours, depending on how a particular shift falls.

Instead of paying for excessive work hours, the Bahamas Government in its wisdom granted time, as compensation for overtime. Consequently, we have a 'Rota Day' system in place. This allows an officer to be given an extra day per month, which prevents us from violating the Labor Law Act of our country. Therefore, this is not a privilege but an entitlement under the Standard Labor Law Act.

Two pertinent areas are left unmanned due to this precarious position that the Fire Department finds itself in;

1. **Investigation:** The investigation Area is virtual without presence. Every fire that causes loss or damages to any property of value, is considered arson until otherwise proven. The Insurance Companies are very astute, especially nowadays when it comes to paying out claims. The claimants are also vigilant in ensuring that their compensations are completed in a timely fashion. The majority of the outcome in these cases lies in the domain of the Fire Department. When there is that tragic loss of life, the burden and expediency become even more urgent.
2. **Prevention Area:** This Area is non-existent. Among its other responsibilities, the Fire Prevention Area is to ensure that all buildings that are open for the public to do business meet the required legal standards as dictated by law in the Bahamas Building Code and the Fire and Safety Regulation Code. It is also mandated to ensure that adequate water supplies for residential and industrial areas are installed and provide recommendations for installing hydrants and other inexhaustible water supply in new or intended development, e.g. subdivisions and high-rise buildings.

Public Education is a significant part of the Prevention Area where the training of Government and Civic Organizations in Basic Fire and Safety Measures falls under this portfolio. The constant training and development of the men in the Fire Department are indispensable if we are to minimize the loss of the victim's life and that of the Fire/Rescue Officer. Whether it is in Fire Suppression; Evacuation, Extrication from mangled machinery and buildings, or Search and Rescue (SAR), training is a must.

We are all aware of the Pandemic COVID-19 and the aftermath of the recent Hurricane Dorian and those quick temporary measures that had to be in place to manage the situation as it arises. However, we were also aware that this would be an unsustainable remedy with a short life span at most. The July report reflects the activities for the Month of July 2020 and it shows that the Fire Department needs to get back as close as possible to being effective. A dispassionate and non-prejudicial review needs to be taken and the decision to return the human resources to the Fire Department.

### **Fire Station in Eight Mile Rock**

This station serves the largest community in the Commonwealth of the Bahamas, including the western area of the island and is presently non-functional due to the above challenges. Perhaps subsequent recommendations can resolve this issue if considered.

### **1.18 Recommendation**

That the Police Officers trained in the discipline of Fire Fighting Rescue, Extrication, Arson Investigation and Fire Prevention, be returned to the Fire Department, where their expertise can be effectively employed and thereby bring excellence to the people of our community. This would also be effective in transferring knowledge to those young firefighters who will inevitably become successor to this essential service. Overseas training is a moot point at this time and therefore, it is incumbent upon us to ensure that they are, developed in house by those who are knowledgeable and experienced in this field. Time is not our best friend at this critical juncture in the R.B.P.F and all will be in need of this vital service one way or another. It would be far less than prudent to not develop and educate these young officers now. Today we are risking their safety due to current strategies that are in place. We perhaps need to evaluate and re-evaluate until we can bring a balance dispassionately and professionally to this insidious environment in which we find ourselves.

During the month of January through December 2020, the Fire Department has continued its Fire Safety Awareness Programs through social media regarding social distancing and preventing the spread of the corona virus as stated in COVID-19 Order. The Department will also be actively engaged in distributing pamphlets on Fire Safety throughout the island of Grand Bahama.

The Fire Department will remain in a state of readiness and take all safety precautions while we continue to carry out our mandate of “The Protection of life and Property” and assist in preventing the spread of this Epidemic Corona Virus that puts everyone life at risk.

3. 1 SUV is needed to allow protection officers to escort PM and other dignitaries on and off road when required. One (1) non-traditional vehicle to be utilized for surveillance and other covert operations. This will significantly enhance the collection and corroboration of information to assist in the intelligence-led operations mandate outlined in the COP Policing Plan 2020. A vehicle was previously assigned but was destroyed by Hurricane Dorian in Sept 2019.
4. CIF funds will aid in the cultivation sources that provide good actionable intelligence.
